This total mixture gives us 250mg of testosterone per milliliter. One thing you may have noticed is that the composition of Sustanon 250 is very similar to Omnadren, a testosterone blend manufactured by Jelfa. The original Omnadren mixture was identical to Sustanon 250 with one exception. Sustanon injections are typically available in 250mg/ml doses, but your dose will depend on the severity of your testosterone depletion as well as other factors. This is usually determined by an experienced medical professional that can prescribe you the injections with all of your deciding factors in mind. [knowing it](#)

10 x 1ml Ampule. Sustanon 250 is a popular testosterone blend.
