Testoviron Depot Injection Uses. Testoviron Depot injection is used to treat male hormonal problems like hypogonadism, delayed puberty, and problems related to testosterone production. This medication is used in men who do not make enough testosterone (a naturally occurring hormone necessary for masculinity and male sexual characteristics). Testoviron Depot 50, 100, 135, 250 Testoviron Depot 50, 100, 135, 250 Testoviron Depot 50, 100, 135, 250 compound is a mixture of two different testosterone esters. The Testosterone propionate leads to a quick effect which, due to the depot effect of Testosterone enanthate, remains for several days. [helpful resources](#)

BUY STEROID TABLETS.
