Cut Mix 150 goes well with anabolic steroids such as Winstrol. It will help boost your performance, endurance and stimulate fat burning. The optimal cycle duration for Cut Mix 150 is 6 weeks. This of course doesn't mean it's not tasty... I hope this myth is outdated. I do not see the reason to always eat rice, chicken and broccoli, as this type of very restrictive diet is the prerogative of those who use drugs, and consequently must be careful to safeguard their health already put at risk by taking the drugs, or by those who follow a preparation for competitive purposes.
