Buy CJC-1295 with DAC at Element SARMS for the best price and quality. CJC-1295 with DAC is a long acting Growth Hormone Releasing Hormone, which causes the anterior pituitary to release more growth hormone. We offer the purest SARMS and Peptides sourced

CJC-1295 with DAC increases plasma growth hormone (GH) and insulin-like growth factor 1 (IGF-1) levels, which is critical for building muscle. Additionally, it can be used to treat lipodystrophy and growth hormone deficiency. Daily Dosage & General Directions: 3 tablets per day. [take a look at the site here](#)

Rather than being a type of cycle, what this term ultimately means is that CJC 1295 DAC provides the perfect foundation to allow for flexible cycle building. You can combine this product with all GHRP types as well as "specialist" peptides designed to achieve niche goals like melanotan and frag 176 - 191. CJC 1295 DAC Dosage. It is advised to start with CJC-1295 DAC 2mg that is diluted with 2ml of sterile water for injection bactericidal. It is best to store the peptide in diluted form, preferably germicidal water. The recommended CJC 1295 DAC dosage is 30-60 g per 1 kg of body weight per week.

DESCRIPTION. CJC-1295

with DAC is a synthetic analogue of a Growth Hormone Secretagogue (GHS) and Growth Hormone-Releasing Hormone (GHRH). It can be classified as the tetra-substituted peptide hormones and contains thirty amino acids. CJC-1295 is an improved formula of GRF (1-29), with a modified half-life. CJC-1295 DAC: Given its longer clearance time, you don't need to take CJC-1295 DAC as often. Dr. Seeds says that a dose of 100 mcg taken twice a week is typically used as a starting saturation dose. For a short-term treatment protocol or other research, it may be appropriate to take 100 mcg in a single daily injection daily.
