Winstrol is one of the most popular and well-known anabolic steroids on earth. Developed by Winthrop Laboratories in the late 1950's, this is an anabolic steroid that has gotten a lot of media attention over the years. In fact, those who have never used anabolic steroids, if they can name a steroid it's usually Winstrol or Stanozolol. Winstrol (chemically known as stanozolol) is an artificial anabolic steroid. It is used to treat hereditary angioedema, which causes swelling of the face, extremities, bowel wall, genitals and throat. It has also been demonstrated to effectively treat anaemia due to its ability to increase the body's production of red blood cells.
