Product Details Propadrol: Anabolic Testosterone Stimulator - The Latest Bodybuilding Supplement from EST Propadrol Helps Promote and increase in free testosterone baseline blood levels Propadrol Helps Promote muscle hypertrophy Propadrol Helps Promote strength gains Propadrol Helps: - Promote and increase in free testosterone baseline blood levels - Promote muscle hypertrophy - Promote strength gains Propadrol is possibly the fastest acting "pro anabolic" available. The compound 6-17-dihydroxyetiocholove-3-ol propionate (3-OHAT) is structured to metabolize very quickly.

honestly it WOULD be a killer strength cycle but both being strong androgens and having similar effects (although Epi does have a rediculously high anabolic rating, its binding affinity for the AR is extremely high and exerts more CLEAN androgenic effects) I would think you wouldnt get as much out of either of those combined as you would A) alone in 2 seperate cycles and B) stacked with a Test.
