Results Of Using CJC-1295 DAC. In a clinical trial, it was found that CJC-1295DAC injected every day for twenty days into fit young men and women resulted in an average lean muscle gain of 4.6lb - and that is impressive! Similar trials with older subjects found similar muscle gains, coupled with a significant loss of fat. So let's start the week off with a simple bench press. Use a #weight you can lift and release efficiently. There's no sense in loading on weight you can't handle just to "look good", leave your ego at home! #Form is everything! Full range of motion, slow and steady wins the race.
