On the subject of Desoxy T, it's going to be much like masteron, maybe less drying. Possibly primobolan. Basically, you're not seeing much. Iirc it works a little faster than primo. The phera to desoxy equals superdrol to masteron comparison is accurate. desoxy t acetate 10ml. desoxy t acetate 10ml. \$39.99 trestolone acetate 10ml. trestolone acetate 10ml. \$49.99 sold out. hmg 75iu. hmg 75iu. \$44.99 hcg 5000iu. hcg 5000iu. \$34.99 adex 30ml x 1mg. adex 30ml x 1mg. \$24.99 aromasin 30ml x 20mg. aromasin 30ml x 20mg. \$24.99 ostarine 30ml x 20mg. ostarine 30ml x 20mg. \$29.99

Love is patient; love is kind. It does not envy; it does not boast; it is not proud. It does not dishonour others; it is not self-seeking; it is not easily angered; it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes, always perseveres.

(ie. bolasterone, cheque drops, Methandriol, stenbolone, trestolone, etc...). im looking to see if anybody has experience with it because it is unscheduled and a company is producing it for pretty cheap now.
