Originally I was thinking Test 600/week, Mast 400, Tren 400. Then I started reading about having the tren higher than the test and it seems to work a little better for sides for most. So my question is, would you run it as is above? or Equal parts ike Test400, Mast 400, Tren 400, or Tren highest like Test 300, Mast 300, Tren 500? Thanks. Description. 10ml Vial. Ghost+ TTM (Test/Tren/Mast) 400. This has proven a sweet cycle for me. again if it were me running your cycle id probably go for: weeks 1-15 test e 250mg weeks 1-12 tren e 500mg weeks 1-15 mast 400mg (probably 500mg just for sake of ease with pinning)

For me I like: Test at 500, Tren at 600, Mast at 400. Right now that's where my Test and Tren are, and when I drop a few more lbs I will be adding the Mast and rolling into summer. #nutritiondefined #ndapproved #lifestyleweak #nutritiontips #nutritionfacts #summerfoods #tomatoes #antioxidants #lycopene #healthyfats #cleaneating #whole30 #vegan #fitfam #fitness #healthyeating #healthylifestyle #eatwell #fitindia #cleaneating #instahealth #instagood #nutrition #antiageing #nutritioncoach #nutritionist #india 500 test 400 tren e #2. I expected it to kick in after about 4 weeks. The sides have been manageable, sweating and loss of sleep mostly. After three weeks I bumped the dose up to 400 mg pw and the sides aren't any worse. #corsicaraidfemina #lespouettesfitness #zumba #jolimoiparis #teamolifit #angers #strava #run #fitgirl #fitnessaddict #nopainnogain #sportaddict #garmin #fenix5s #fitmum #yoga #spartanrace #pertedepoids #positivevibes #workout #diet #determination #motivation #focus #musculatation #nutrition [learn this here now](#)
