Stanos from an anabolic steroid with androgenic activity. The active substance is represented by stanozolol of a synthetic nature. Release form - tablets, dosage - 10 mg of the active substance in each. The purpose of Stanos is to build muscle mass in combination with an increase in strength and endurance. Description Stanos-10 100 Tablets By Meditech. Stanozolol is a moderate anabolic and low androgen steroid. This means that it produces muscle mass and medium strength gains. However, the mass gained through Winstrol has the advantage of being of good quality and durable as this gain is not due to the soda hydro retention, as is the case for many anabolic.
