Testoviron Depot bayer 1ml amp 250mg/1ml Testoviron Depot (Testosterone Enanthate) is an oil-based injectable, designed to release testosterone slowly from the injection site. Once administered, serum concentrations of this hormone will rise for several days, and remain markedly elevated for approximately two weeks. The usual dosage of testosterone enanthate is 250 mg to 750 mg per week. This amount will provide you with a very rapid gain of both strength and body weight. Your muscles will become very pronounced but again, those side effects can hinder the effects. You may decide a better option is to add an oral drug such as Anadrol or Dianabol. O equilíbrio energetico ocorre quando os alimentos que ingerimos sao suficientes para nosso gasto energetico. O fator responsavel pela energia que entra e o carboidrato, a gordura, a proteina e o alcool.

Testoviron 250mg (Testosterone Enanthate) - Bayer Testoviron Depot is an anabolic steroid used to boost Testosterone levels in bodybuilders, athletes and fitness enthusiasts. With boosted Testosterone levels in your body, building lean muscle mass and greater physical strength is more easily achieved. Testosterone Enanthate Overview and History. Testosterone Enanthate is one of the many esterified variants of Testosterone available. It is an injectable compound with a slow rate of release due to the larger Enanthate ester attached to the Testosterone molecule. This augments the release rate and half-life of Testosterone to that of a slower ...
