Alpha-1 Max Log and Intro - AnabolicMinds

I'm running a cycle of BSL alpha 1 max (20mg twice a day), I'm now 9 days in to a 3-4 week cycle (heard sides can start hitting hard at 3 weeks so I'm playing it by ear). I'm running Cycle support (4 caps a day) with it and also have aqua dex (.5mg EOD). Just had a few questions, since Alpha 1 doesn't aromatase should I continue the aqua dex?
