## Anavar - AnabolicMinds

In my experience I've used Alltest and Oxidrollic and the results where pretty good. I'm happier using Alltest because it worked better for me than Sustenon or Anadrol.

## Fake anabolic androgenic steroids on the black market – a systematic review and meta-analysis on qualitative and quantitative analytical results found within the literature

### Abstract

**Objective:** Supraphysiologic doses of anabolic androgenic steroids (AAS) are widely used to improve body image and sport performance goals. These substances can easily be acquired over the internet, leading to a substantial black market. We reviewed literature that assessed the quality and quantity of AAS found on the black market.

**Methods:** We searched PubMed/Medline, Embase and Google Scholar for articles published before March 2022. Additional hand searches were conducted to obtain studies not found in the primary literature search. Studies were included if they report on qualitative and/or quantitative analytical findings of AAS from the black market. Primary outcomes were proportions of counterfeit or substandard AAS. Eligible articles were extracted; quality appraisal was done using the ToxTool for in-vitro studies. We used random-effects models to calculate the overall mean estimates for outcomes. The review protocol has been published and registered in INPLASY.

**Results:** Overall, 19 studies, which in total comprised 5,413 anabolic samples, met the inclusion criteria, and passed the quality appraisal from two WHO world regions that reported findings, the Americas and Europe. Most studies were nonclinical laboratory studies (95%) and provided samples seized by authorities (74%). In 18 articles, proportions of counterfeit substances and in eight articles, proportions of substandard substances were presented. The overall mean estimate for counterfeit anabolic steroids found on the black market was 36% (95% CI = 29, 43). An additional 37% (95% CI = 17, 63) were of substandard quality. We also demonstrate that these drugs could contain no active ingredient, or in another amount than that labeled, a wrong active ingredient, as well as not all or more active ingredients than were labeled. High heterogeneity among all analyses and significant differences between geographical subgroups were found.

**Conclusion:** With this systematic review and meta-analysis, we demonstrate that substantial mean proportions of black-market AAS are counterfeit and of substandard quality. These products pose a considerable individual and public health threat, and the very wide range in proportions of fake black-market AAS puts the user in a situation of

Hey guys so my roommate has got a vial from a local douchebag I know, he was told it was Apex Pharma Sust, today I happened to see his vial, and it does NOT look like sust to me it says APEXSHRED 200mg/ml and that's the only info on the compound that's given. I tried looking around thru apex Pharma sites online and saw nothing called APEXSHRED.

Legend Awards 4 May 30, 2019 #2 It makes me strong as heck! I gained muscle mass, lost some fat, looked good, felt good. I really haven't had mentionable sides on Var. I've used it multiple times, in cycles with other compounds, and solo. Anavar is my favorite compound overall, and I'll definitely be using it again.
