

Bioactive compounds currently in use for the (supposed) alleviation of joint discomfort include collagen, glucosamine, and hyaluronic acid. Interestingly, these compounds occur naturally in high amounts in chicken eggshell membrane (EM), that is, the membrane located between the calcified shell and the egg white in chicken eggs.

## The Benefits and Risks of Eating Eggshells - Healthline

### HOW TO MAKE EGGSHELL POWDER

1

Drop shells in boiling water for a couple of minutes is sufficient to rid them of any harmful bacteria

2

Remove the shells from the water, spread them on a baking sheet and let them dry overnight

3

Bake the eggshells at 250 degrees F to dry them further

4

Grind the eggshells into a very fine powder using a coffee grinder or a spice mill

5

Store in an airtight jar in a cool, dry place

Dr. Axe  
FOOD IS MEDICINE

Today, a few major pharmaceutical companies now sell eggshell membrane supplements as joint pain

relief medications. Mercola's BiovaFlex formula, Jamieson's Natural Eggshell Membrane (NEM) supplement, and the Natural Factors NEM capsules are three of the best-known supplements widely available today.

**Joint Support Supplements for Joint Health\* - Mercola**

The most popular joint/arthritis supplements are glucosamine and chondroitin, with sales nearing \$1 billion annually. What Makes NEM Unique? For starters, Glucosamine is extracted from shrimp, crab, and lobster shells. Moreover, chondroitin sulfate is derived from animal cartilage. An example would be sharks.

### Can we use eggshells to treat osteoarthritis? - McGill University

The isolated membrane is then partially hydrolyzed using a proprietary process and dry blended to produce 100% pure Natural Eggshell Membrane (NEM®). In preliminary open-label human clinical trials totaling 37 subjects with joint and connective tissue disorders, oral supplementation with 500 mg per day of NEM® resulted in an observed decrease .

### Healthy Origins Eggshell Membrane (NEM), 500 mg - amazon

Eggshells are roughly 40% calcium, with each gram providing 381-401 mg ( 2, 3 ). Half an eggshell may provide enough calcium to meet the daily requirements for adults, which is 1,000 mg per day .
