FastRip 150 is a combination of 3 steroid compounds attached to there shortest of esters. These are Testosterone, Trenbolone and Drostanolone. Synthesized for the athlete who is looking for a mixture of the 3 most popular compounds which combined together help increase strength and lean mass.

Testosterone Propionate | Anabolic Muscles

PROPIODRAGON 150 by DRAGON POWER for intramuscular injection contains Testosterone Propionate 150 mg per ml.. Testosterone Propionate is the shortest estered testosterone preparation available on the market currently. It does everything you'd expect from testosterone, but anecdotally seems to promote less water retention than longer estered versions of the product.

Buy Cut Mix 150 Online - Best Anabolic Steroid

Propionate 150 mg/ml 10 ml It is widely used by many bodybuilders as other testosterone cypionate and enanthate. It is considered as fast acting due to effects that could be noticed in 1 day. Propionate has all the benefits of the other testosterone. It is advised to use it every 2 days for a proper effect. [on yahoo](#)
