Trenbolone Suspension is considered the most powerful overall steroid available to use by bodybuilders nowadays. Trenbolone Suspension (or Base) is actually no different from any other Trenbolone form (such as Trenbolone Enanthate, Acetate or Hexahydrobenzylcarbonate) - the only difference between them is the fact that Trenbolone Suspension has no attached ester which means that all the ...

Tri-Tren is an injectable anabolic steroid containing esters of Trenbolone. It includes such esters as Trenbolone Acetate, Trenbolone Enanthate and Trenbolone Hexahydrobenzylcarbonate. This powerful anabolic agent was previously used in veterinary medicine to increase muscle mass and stimulate appetite in pets. As per today, this drug is very popular: it will start to work almost immediately ...
