Dong quai can help support estrogen levels while vitex (chaste tree berry) supports progesterone in women. Licorice root helps to potentiate cortisol levels to support energy and help out the adrenal glands. Tongkat ali has been found to improve testosterone levels, however this is one that I haven't found to be super effective clinical to be honest (weight lifting, lifestyle and stress regulation seem to work better). And saw palmetto can help to inhibit 5 alpha reductase - an enzyme that converts testosterone to DHT (dihydrotestosterone). High levels of DHT can cause hair loss in men, and hair growth on the chin/chest/abdomen in women. □

Above all, Proviron is the product for the post cycle therapy. In other words, bodybuilders use it to deal with the side effects of anabolic steroids and to help an organism to recover after a cycle. Undergoing the PCT is a must after any steroid cycle, regardless of the name of the steroid or the weekly dosage.

So here's something that I don't talk about much and I wish I could fix but only time can do that and that's my hair it's such a downer and gives me dysphoria more than any thing else. I've actually started to see a lot of regrowing hair as I take better care of my scalp and listening to my friend who told me to stop worrying about it so much and therefore stop wearing hats to hide it and I have since then been much happier about it and more confident with it #dysphoria #transgirlproblems #notsocute☹️ #trans #transgirl #free #mtf #hrt #transgender 1080
