Deca Durabolin is attached to the large Decanoate ester, which controls the hormone's rate of release releasing, slowing it down tremendously. This allows the user to make use of the Nandrolone hormone without the need for frequent injections. Once injected, it's released in the body during the first 24-48 hours.
Только вот не надо за раз выпивать пол литра, необходимо пить небольшими глотками и по чуть-чуть, чтоб не было дискомфорта в животе.
