**DEPARTMENT OF THE TREASURY**  
Internal Revenue Service  
20 CFR Parts 48 and 602  
(18 FR 6011)  
RIN 1545-6040  
**Genitive Exempt Tax**  
AGENCY: Internal Revenue Service,  
Treasury.  
**ACTION:** Final Regulations.

**SUMMARY:** This document contains final regulations relating to the federal excise tax on gasoline. These regulations reflect and implement certain changes made by the Tax Reform Act of 1969 and the Revenue Reconciliation Act of 1970. These regulations affect refiners, importers, and distributors of gasoline and provide guidance relating to transfer transactions between parties for tax, gasoline blends, and grades.

**EFFECTIVE DATE:** These regulations are effective January 1, 1971, except that § 60.602-10 is effective July 1, 1971.

**FOR FURTHER INFORMATION CONTACT:** Frank Boland, (202) 344-2577 (not a toll-free call).

**SUPPLEMENTARY INFORMATION:**

**Paperwork Reduction Act**  
The reduction of information contained in this final regulation has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1970 (42 U.S.C. 3045) under control number 1545-6028. The estimated annual burden per respondent varies from 1 hour to 25 hours.

depending on individual circumstances, with an estimated average of 2 hours. These estimates are an approximation of the average time required to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time depending on their particular circumstances.

Comments regarding the accuracy of the Service estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, c/o IRS Revenue Clearance Office, 715, Washington, DC 20543, and to the Office of Management and Budget, Attention: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

**Background**  
Sections 4801 and 4802 of the Internal Revenue Code impose, and provide certain rules relating to, the federal excise tax on gasoline. Sections 4801 and 4802 were amended in relevant part by the Tax Reform Act of 1969 (the "1969 Act") and the Revenue Reconciliation Act of 1970 (the "1970 Act").

On August 27, 1971, the IRS published in the Federal Register (36 FR 42277) proposed amendments to the regulations (26 CFR part 601) under sections 4801 and 4802. The IRS received a number of comments with respect to the proposed regulations, and a public hearing was held on November 23, 1971. After consideration of all comments received and statements made at the public hearing, the proposed regulations are adopted as revised by the Treasury Department.

**Significant Issues Raised by Comments and Changes Made by the Final Regulations**  
**Overview**  
Three major issues were raised in the public comments on the proposed regulations: (1) The identity of the person liable for tax on removal of

gasoline at the terminal tank; (2) the treatment of gasoline blends, and (3) the relief procedures under section 6011. Generally, the final regulations adopt the proposed rule that the person liable is liable for tax on removal of gasoline at the terminal tank, modify the proposed rule for gasoline blends to allow tax-free removal of gasoline blends to approved individuals and refiners, and modify the proposed relief procedures by revising the form and content of the certificate, if any, issued. The final regulations generally are effective on and after January 1, 1971. Transitional rules are provided for the period from July 1, 1970, to December 31, 1971.

**Identification of 6011-12**  
Under the proposed regulations, the term "bulk transfer" means any transfer of gasoline by pipeline or truck, except removal commencing on or after January 1, 1971, for use in a gasoline engine's tank or for use in an approved removal to another approved recipient.

The final regulations do not adopt this suggestion. The principal purpose of the 1969 Act amendments to section 4801 was to make all removals of gasoline from a terminal tank a taxable event. Enforcement of the federal gasoline excise tax is greatly improved if some removals of gasoline at the terminal tank are exempt from tax.

In response to a comment, the final regulations clarify that entry into the District of Columbia and other states, gasoline is brought into Puerto Rico (except as part of the United States customs territory) or Hawaii, entry into the United States from outside where gasoline is brought into the United States from Puerto Rico.

The final regulations clarify the term "gasoline blend" and adopt the list of gasoline blends contained in the proposed regulations, with certain modifications.

Trenbolone is not legal in the United States or Canada. Mexico has a reputation for being lax on steroid laws, so it is not surprising that Trenbolone is legal there. In Argentina, Trenbolone is legal for personal use but not for sale.

## Is Trenbolone Acetate Legal: Tren Ace and Its Legality Issues

There are so many legal Trenbolone alternative sold online in Canada. Some were good, some were bad and some had no effect at all. It can be hard to know which ones to buy. I've taken supplements for months with no results. I've fallen victim to "free trial" scams that re-bill you every month. More so, I've experienced side effects.

## Is Trenbolone Illegal or Legal? (US, UK, Australia & Canada)

Legal Authority. Anabolic steroids are listed in schedule III of the Controlled Substances Act (CSA). 21 U. S. C. 802 (41) and 812 (c), Schedule III (e).
