Testosterone enanthate is used in Testosterone replacement therapy (TRT) to replace the testosterone usually produced by men and to improve the symptoms of low testosterone. It is injected either once per week or split into two doses and injected every few days depending on the individual and the best protocol as decided by a doctor.

Increasing fruit and vegetables also helps keep you full on very few calories and you can burn some calories from digesting it. Aim for the typical 5 servings of fruit and veg a day.
