Sustanon 250 injection is called a depot injection. It's injected deep into a muscle, for example in the buttock, thigh or upper arm, where it forms a reservoir of testosterone that is gradually ...

Too often, we tell ourselves to wait on the important things. We'll start working out and eating nutritious meals next week. We'll put off that doctor's appointment to the end of the month.

Priced at just £7 + £1 p&p, this beautifully designed one of a kind necklace is made from recycled yarn using a kumihimo disc & features 3 separate braids plaited together. The necklace is finished off with tibetan silver end caps & clasp (as shown) & it is approx 32" long.

Sustanon 250 is a clear pale yellow solution for injection containing the active ingredient testosterone in 4 (250 mg/ml) separate forms. The active substances of Sustanon 250 (see section 6 "What Sustanon 250 contains") are turned into testosterone by your body. Testosterone is a natural male hormone known as an androgen.
