Tren Hexa (Trenbolone hexahydrobenzylcarbonate) is a slow acting injectable ester of the really powerful anabolic steroid trenbolone hormone. Usually, the trenbolone hormone is seen most commonly as trenbolone acetate, which is a much faster acting type of the steroid. This specific hexahydrobenzylcarbonate ester of trenbolone (Tren Hexa) that is being used here is extending the release of...

I love to add AMRAPs into workouts because they get your heart rate up quickly and if you're competitive like me you can get a pretty solid workout in without having to commit a massive amount of time. Also clutch if you've got a five month old who hates taking a nap longer than 20 minutes ☐ Yay for home workouts in tiny spaces ☐
