50mg x 100 tabs (5 to 10 times stronger than regular dosed Dianabol) Dianabol represents one of the most popular and one of the most important anabolic steroids of all time. Without question, this is the most popular oral steroid to ever hit the market and one of the most popular steroids in any form. This is a very widely debated topic, but to lose fat the body must be in a calorie deficit. The body must consume less calories (from food), then it exerts. A lot of factors go into how much calories your body burns on a daily bases, but if you are not losing weight...you are consuming too many calories!

Methandrostenolone is also being referred to Methandienone in a lot of countries and this is a very popular product and very widely used. This substance is most well known by its brand name called Dianabol. Methandrostenolone is a derivative of testosterone, which modified so that the hormone's androgenic (masculinizing) properties are being reduced and its anabolic (tissues building)...

Experimented with a new belt position. Ultra high so I can get better leverages. It was actually much more comfortable when I got used to it. You can see the reps at the lighter weights are still a bit shaky. But then I got cocky and pulled 195 and 200 fairly easily.
