H O R M O N E S in balance is a bit of a juggling act... Menopause means the end of monthly cycles which brings with it symptoms of progesterone and estrogen imbalance for women. Hot flushes/ flashes, sweats, irritability, weight gain, fluid retention, poor sleep and low libido are some of what may be experienced. Bio-identical hormones to bring back balance is an individualised alternative to synthetic hormones. DM or visit our site for more info!

The dosage of hcg pregnyl 5000 iu depends on the athlete's use. For bodybuilders who follow long cycles of anabolic steroids that do not contain nandrolone or trenbolone, it is recommended to have a hcg pregnyl dosage once or twice a week during the cycle, at a dose of 250 iu, and to respect regular intervals between injections.
