Si el producto viene en pastillas, una dosis de 20 microgramos equivale a 1 pastilla de 0,02 miligramos. Asegúrate de hablar con el médico antes de empezar a tomar clenbuterol para que tengas la certeza de que esta es la dosis adecuada para ti.

While some people have certainly reported that zeolite was life changing, I genuinely believe that it's a short-term band aid that can create long-term problems.

How to Take Clenbuterol. Regardless of whether you are taking Clenbuterol for the first time or have been taking it for a long time the dosage will end up being the same.. Men are advised to take 40mcg of this Beta-2 stimulator per day, while women need to consume 20mcg of Clenbuterol per day.. The doses advised are low and mild enough to be effective, yet cause the least amount of side effects.
