Second, I tried the Oat Hydrating Toner by @firstaidbeauty. Another product with a ton of hype. All winter/summer long, I've been using the Laneige Cream Skin Toner, and it was lovely. The Oat Hydrating Toner has a thicker consistency, almost making it more hydrating (which I didn't think was possible). It contains ingredients like oatmeal, wild oats & honey, which are super hydrating, soothing, and hydrating to the skin. I've used the toner the last 3 mornings and it's been a true dream.

Masteron Propionate (Alpha Pharma) is largely used for boosting muscle mass. With it, you will enjoy significant increases in lean muscle mass

Mastebolin (ampoules) is widely known as Masteron, Drostanolone Propionate. Other alternative names for Mastebolin (ampoules) (Drostanolone Propionate): Alpha-Pharma Drostanolone Propionate, Drostanolone Propionate, Masterone, Masteron 100mg 10, Masteron Depot, Mastebolin (ampoules) 100mg 10, Mastabol 100 by British Dragon.

Fast forward about 18 months...I started seeing a few friends talking about this stuff on Facebook!

Several friends sweetly reached out to me about it. (Finished in the comments 🗨)

The dosages observed are normally 100 mg every 4-5 days. Drostanolone is not hepatotoxic so liver damage is quite unlikely. High blood pressure and gynecomastia are not a problem since neither water nor salt retention occurs and the estrogen level remains low.
