Winstrol Depot by DESMA/Zambon, Spain is an injectable steroid which contains 50mg per 1ml of stanozolol suspended in water. Some bodybuilders claim that the injectable version of this steroid yields better results than does the oral version.

test e and oral winstrol cycle, winstrol cycle in hindi, oxandrolona stanozolol resultados, stanozolol oral results, winstrol use in horses, neural regenerative medicine, winstrol anavar proviron, winstrol bad for joints, 10 day winstrol cycle, winstrol anavar combi.

“I would like to thank entire Mist team for helping us achieving our dreams and constantly motivating and guiding us in this tough phase.. Thank you MIST..!”

Winstrol is best used at a rate of 50 mg a day. When in an injection that amounts to a single injection every day around the same time. In orals, that'll be at least 5 tabs of a legit product. In a mass stack Winny makes a good match for Deca and Nilevar.
