"FASTBUDS LSD 25 AUTO" cannabis grow journal. Strains: FastBuds LSD-25 harvest10 by . Grow room Indoor, growing in Soilless. Grow conditions, techniques, grower comments. Producers also undergo mandatory regular inspections of their production facilities and practices. These thorough checks add another layer of safety compared to the illicit market products and helps minimize the risk to the end-user. LSD-25 is an indica dominant strain from the FastBuds lineage with a powerful sour-earthy aroma and instant "stone body" effect. The smell of diesel fuel and wood varnish is so strong during flowering, so it is recommended to use carbon filters. With heavy smoking, psychedelic and visual effects are possible.
