\*\*\*AXA ARE NO LONGER IN PRODUCTION WITH US. OPT FOR - OPTIMUM DBOL 50 So,  
New 2 steriods, but not the gym. Got dianabol 50mg from a local gym, The lab is Axamed. Came in a  
small glass bottle NOT sealed. Anyone got any information on how long until i will see results and if  
anyone has used this lab before also any way i can tell if this is actually 50mg and not less?

I hate this question more than anything! There are lots of pills out there. Some that work. Many have  
side effects. Many don't work. Many provide temporary relief. [informative post](#)

On average, the dosage of Dbol per day is from 30 to 50 mg for four to six weeks. For beginners who  
are not familiar with the effect of steroids on the body, you can limit yourself to a dose of 30-40 mg.  
Such dosage will give an excellent result with minimal risk of side effects. #gym #gymmotivation
