Nebido contains testosterone, a male hormone, as the active ingredient. Nebido is injected into a muscle in your body. There it can be stored and gradually released over a period of time. Nebido is used in adult men for testosterone replacement to treat various health problems caused by a lack of testosterone (male hypogonadism).

Please consider buying a Yoga tshirt. It will help me build up the trust score at Teespring and a part of your spending will be going in women empowerment in India. Thanks ☐
