Methandrostenolone, also known as methandienone or dianabol, belongs to the class of organic compounds known as androgens and derivatives. These are 3-hydroxylated C19 steroid hormones. They are known to favor the development of masculine characteristics. They also show profound effects on scalp and body hair in humans.

Prepare a plan and work on it slowly slowly, then you will reach your goals with much more precision. Determination is all that you need in order to do that and this part is in our hands only.

METHANEX D-BOL 100 tablets Methandienone METHANDIENONE is an oral androgenic anabolic steroid that exerts its effects through the androgen receptor, resulting in increased protein synthesis and nitrogen retention in muscle tissue with dramatic increases in body mass and strength.
