Testosteron Depo (Galenika) Enanthate. Testosteron Depo Galenika is a quality Testosterone enanthate, an anabolic steroid called Testosterone Depot because of its long action. The added ester Enanthate delays the release of the hormone in the blood, so it acts up to 10-12 days after injection.

Боевым вылетом для истребителей считался только такой вылет, при котором истребители имели встречу с воздушным противником и вели с ним воздушный бой, а при выполнении задачи по прикрытию штурмовиков и бомбардировщиков считать боевым вылетом для истребителей только такой вылет, при котором штурмовики и бомбардировщики при выполнении боевой задачи не имели потерь от атак истребителей противника.

It's that last bit that has been so hard for me to get used to. Before my concussion, I had no problems with my airways and so my brain wasn't used to the necessity of this routine. Now I struggle to know exactly when and how to complete these tasks and some days they just don't get done.
