Testosterone is the main male sex hormone. It is very important in sports, including bodybuilding. The steroid is quickly absorbed into the blood and has a positive effect on the body and performance. Aburairhan Test Review. Iranian Testosterone Enanthate 250 from Aburairhan is a pharmaceutical-grade steroid. The answer is false. You grow by creating micro tears or injuries to muscles. Repairing of those micro traumas results in growth. Inflammation is your friend. Ice baths and chryo chambers might help with injury but will be counter-productive for growth. I've seen similar data on saunas although regular sauna use does have other positive benefits from what I understand. Yeah
