## Pre-Workouts - Chaos and Pain

Cannibal Riot is excellent as a step down/daily driver. Really good energy, I've gotten more out of it then I have some heavier hitters, energy wise. It's good for a productive workout. It is lighter on pumps but I add to it so it's more balanced. They have a lot of bogo's on the site though they are sold out now.

Cannibal Permaswole is a caffeine free pre workout supplement from Chaos and Pain. Notable ingredients include 6 g L-Citrulline, 2 g GlycerPump, and 1 g of NitroSigine. Chaos and Pain was kind enough to send me a tub to test out and review. Although I've only tried it three times, this product performs incredibly well.

As mentioned, Cannibal Riot came to life in the DMHA era of pre-workouts, and the first version actually featured the potent stimulants DMHA and DMAA, as well as a strong 300mg of caffeine. If we are to take Chaos and Pain at its word, that means the Cannibal Riot coming down the pipeline is going to have a harder stimulant experience than that.

### Chaos and Pain packs an intense blend of stims in Cannibal Riot

Cannibal Ferox AMPeD is an ultra high-stim pre-workout from Chaos and Pain. It contains over 500 mg of caffeine and 400 mg of DMHA per serving, making it one of the most loaded pre-workout ingredient labels of 2023. I'd only recommend Cannibal Ferox AMPeD to the most experienced pre-workout users.
