

You can perfect your form later- the majority of you should just shoot for good. You can lift more often, and heavier than you think, fuckface. Stop listening to conventional wisdom, because it's conventional and hardly wisdom. Conventional thought and action will bring naught but average results.

A lack of Myostatin! Myostatin is a protein made by the muscle cells that inhibits muscle growth. Myostatin doesn't want you to be a freak! Back in the early 2000s, late 1990s, pictures of insanely HUGE cows started flooding all of the muscle building magazines. What was responsible for these freaks of nature? A lack of Myostatin!
