Does USPS Scan/X-Ray Packages? - packagepatrols

The only reasons why ups/FedEx would open a package is if it's: 1. fuming. 2. Leaking. 3. Reaking. (I'll just refer to those 3 as "a 3" for simplicity) So make sure it's packaged tightly, won't fall apart, it doesn't reek of whatever and it'll be fine. If a loader/unloader comes across one of the 3, they are not allowed to touch it.

Does USPS xrays boxes. . YES. . proof in thread.

Thus, the USPS must scan or x-ray packages to ensure both public and individual health and safety. Imagine if people every day were mailing loaded firearms or cases of poorly packed glass alcohol bottles. Scanning gives the USPS an additional layer of security over their legal prohibitions, which deter most, but not all. .

How well are packages examined? - ABC Action News

Yes, UPS x-ray packages. It is a process that helps carriers scan for prohibited or hazardous content such as explosives, drugs, and toxic chemicals within a package. It also disrupts criminal activities such as drug and human trafficking. However, not every package undergoes X-ray scans. Most packages undergo label scans to activate tracking.

X-Ray/X-Rayed packages USPS : r/SilkRoad - Reddit

#1 Less than an hour ago I sent off a couple rolls of film to Dwaynes' from the nearest post office, but I forgot to write "EXPOSED FILM -- DO NOT X-RAY" on the envelope, even though I'm not even sure they actually do that. Do I have anything to worry about? They were both 200 ISO, 35mm color print film, if that makes any difference.

United States Postal Inspection Service - USPS

As a result, the USPS may scan or x-ray parcels to protect either provision of public health & safety. Imagine if individuals were exporting burdened weapons or cases of poorly packed glass coffee cups daily. Scanning adds protection capacity to the USPS's legal limitations, which dissuades most but not all.
