### Dymatize ISO 100, the analysis - Ginasiovirtual

Dymatize ISO 100 Whey Protein provides you with 25 g of protein, 2 g of carbohydrates, 0.5 g of fat, and 120 calories per serving. This combines with 5.5 grams of BCAAs (L-Leucine, L-Isoleucine, L-Valine) to promote muscle protein synthesis and speed your recovery after intense training.

## My Dymatize Elite Whey Review - heydayDo

It is reputable, but not necessary for the additional cost. The Elite series is fine when you can pick it up cheaper than the ON. Otherwise get the ON. Here's the basic run down. It's 86% (24g protein out of 28g total serving size) protein by weight which is average for isolate. It is however hydrolysed.
