Stretches FOR YOUR LOWER BACK

KNEE TO CHEST

Lie flat on your back with toes pointing towards the sky. Slowly bend your right knee and pull your leg up to your chest. Wrap your hands around your thigh or knee and gently pull the knee towards your chest. Hold for 30 seconds and slowly extend the leg back to the starting position. Repeat three times for each leg.

It is possible to find a great link between global food production with human health and environmental sustainability. The Medd diet allows for higher consumption of locally grown, lower CO2 emission plant foods and higher consumptions of legumes compared to a normal western diet that consumes more red meat and dairy products which have shown a detrimental effect on the environment. {Serra-Majem et al 2020}.
