He had a bust up with the company and moved to a new factory = he owned the original Hyge domain which is hygetropin.cn and he produces 2 legit hyges - green 8iu and yellow 10iu. Hygetropin.com.cn are the people that were left by Dr Lin and made their own site - they also produce HGH - with random colours etc - they are hit and miss - loads of bunk reviews, loads of good reviews.

Manufactured since: 2008 - Present. Price: \$1.8 - \$5 per IU. Website: www.hygene.com.cn. Hygetropin is an 191 amino acid sequence somatotropin of medium quality. While it is identical to human body's own growth hormone, the freeze dried powder may contain some bacterial residue.

I've only ever had the yellow top ones and they have always been good to me.
