I snagged a bottle of high-tech pharmaceuticals new Pro IGF-1, I'm on day three. A little background, i've been bulking for about a month and a half. I am 5 8 1/2, (the half counts!), abou 12% bf, went from 180 to 188, trying to push 200. So far I haven't noticed any change using IGF.

IGF-1, or insulin growth factor 1, is important in the development of children. Similar to insulin, the hormone, helps in the development of children and has anabolic effects on adults. It's a protein consisting of 70 amino acids in a single chain and it is primarily produced in the liver.

This IGF-1 supplement from Hi-Tech Pharmaceuticals will help take you beyond your genetic restraints and help you start building more muscle, fast! Hi Tech Pharmaceuticals Pro IGF-1 contains 1000% more product than competing IGF-1 supplements, meaning more results and more muscle gains for you. IGF-1 has a direct relationship with weight and. Hi-Tech Pharmaceuticals, Inc., launch of Pro-IGF-1™ with the successful extraction of IGF-1 production of Insulin-like growth factor type 1 (IGF-1) from whey protein is a revolutionary discovery for all athletes. Hi-Tech used a molecular biological technique to extract 175 ug/100g, which is a substantial amount of IGF-1.

Hi Tech Pharmaceuticals

formulated IGF-1 with their Liposomal delivery system to ensure their oral IGF-1 bypasses digestion and getting directly into the organs and cells where it can hit those receptors straight on. The Liposomal delivery system makes it 1500% more bioavailable to the body. And without that, IGF-1 loses most of its effectiveness. [more information](#)
