## Review Of Sustanon 400 Cycle Dosage And Benefits - CTN News

Any testosterone can successfully be used as the base of a cycle, Sustanon is no different. An average cycle will last around 12 weeks with an equal amount of time off or on a 'cruise' dose. A typical cycle can vary from 500mg per week up to and over 1000mg per week. There does come a point of diminishing returns, though.
