How Nandrolone Phenylpropionate works

25. 243lb. 6-4. Last two cycles: Tren A / Test 800mg/week for 8 weeks. Test P/ NPP 12 weeks. Although not added on the log caber and Adex are being used throughout. My pct: was the all in one PCT. It's got the correct amount of clomid/nolvadex/aromasin he was even kind enough to throw in some Cialis in that pill so there was no downtime.

NPP Cycle: An Overview - Bodybuilding Blog

#1 I am thinking about trying this cycle next, has anyone ever done this exact cycle? I am looking to lose some fat and build some muscle. Right now I am about 18% body fat. I have done tren in the past just didn't like the sides, I am hoping this will be a bit easier. Test p 300 NPP 300 Primo 300 luki7788 Well-known member Registered Newbies

3rd cycle: Test, NPP, and Primo? | MESO-Rx Forum

Apr 21, 2021 #1 Hey all! Was thinking about using NPP for my next "blast" cycle. I've not used this compound before and understand that you need to pin every 2 to 3 days in order to keep blood levels stable; I'm absolutely fine to do that. What I'm unsure about, and have read conflicting information about, is what constitutes an effective dose.

With 800mg test you will be holding some water for sure. From what I hear primo works best at low bf% so unless I was around 10%bf I would save my money and wait. Now if u were gonna do like 300mg prop 300mg npp 500primo That would make more sense imo but I've nevet ran primo.

I am doing the same. 500 Test C and 400 NPP. 2nd time w/ test and Nandrolone (1st cycle was 500 test and 300-400 Deca with some NPP mixed in). I would take some kind of anti-prolactin supplement or B-6. With my last cycle, I relied mostly on supps. I only took Caber once or twice. My prolactin levels only went from normal low to normal high.

A Test NPP cycle refers to a steroid cycle that combines the use of testosterone and Nandrolone Phenylpropionate (NPP). NPP is a modified form of the anabolic steroid Nandrolone, known for its ability to promote muscle growth and enhance performance.

Nandrolone Phenylpropionate (NPP): Usage, Legalities, and Safe Alternatives

#1 My first cycle was 500mg/week Test E and it went pretty smoothly. I'd like to gain more mass, so I think the next logical step up is Test/NPP for the second cycle. Nandrolone seems to have more sides than Test, so I want to keep the dose low. Is 250mg/week Test + 250mg/week enough to produce results?
