

#1 So I'm running test e right now and just ordered some bottles of superdrol. Have never ran sdrol before but was curious about stacking it with the test, whether adding it to the last 3-4 weeks of my test cycle or running it at a later date alone? Or saving it for my next test cycle as a sort of kickstart.

### Superdrol Cycle Dosage, Results, And Side Effects - Anabolicco

Well I am currently in the middle of cycle #2 (if you dont count previous oral cycle). That cycle with SD

was transdermal test, which I guess could have also been a reason for further shutdown. But considering I'm running a shitload more test in this cycle with tren and having zero problems. Hard to say really.

### Superdrol (Methasterone): The Ultimate Guide - Inside Bodybuilding

- 6 yr. ago I have far too much experience with this compound. Ive run 20mg PWO for 5 weeks alongside 600 deca and 800test, that cycle probably added 45lbs to me total lol. The strength during that (I added SDROL 8 weeks into the cycle so that everything was at least close to saturation levels) was truly absurd.

## Recommendations for Superdrol Cycles - This Home Made Life

Superdrol, also known as methasterone, is an oral anabolic steroid that is known for its potent muscle-building effects. A typical cycle of Superdrol lasts between 4-6 weeks, with dosages ranging from 10-30mg per day. It is important to start with a lower dosage and gradually increase it over time to avoid potential side effects. Additionally, it is recommended to use Superdrol with a post .

**Forum: Tren, Test, EQ and superdrol cycle ~aferg2012, 2017 - eroid s**

1. Superdrol has actually been around since the 1950s. Superdrol. Superdrol Cycle Best Practices and Protocol - Methasterone (a. k. a. methyltestosterone) was first synthesized by the Syntex Corporation in 1956 in hopes that it could be used as an anti-tumor drug (1). But as Wikipedia explains, it was never sold commercially, and Syntex instead .

## Superdrol Steroid Cycles, Dosages, Side effects, Results and How to buy .

A cycle is a practice that involves taking steroids in short bursts which lasts for a few weeks. This will usually occur about 2 - 3 times a year. An average cycle for Superdrol lasts about 4 - 6 weeks maximum. It should not be more than this as it is toxic to the liver. During the cycle, using a cycle support is a must is strongly recommended.

## Superdrol Cycle - Best Practices and Protocol | MuscleChemistry
