Testosterone Topical (Testosterone Cypionate) Reviews

My doctor prescribed 200 mg testosterone cypionate per week. The first 4 weeks I took 200 mg Depo Testosterone per week which came in 1cc vials. I self injected every Friday evening. After 4 weeks I received a generic brand when I refilled the prescription. The new brand was 200 mg Perrigo which also came in 1cc vials.

An advertisement for Testosterone Cypionate. The top left features the product name "Testosterone Cypionate" in a stylized font, with "Testosterone" in black and "Cypionate" in a large, flowing script. To the right is a clear glass vial with a red cap, containing a clear liquid. The vial has a logo for "AAJ REJUVENATION CLINIC" in red. Below the name and vial, there is text: "7 Day Half-Life" followed by an explanation of half-life. Then "Ester Benefits" followed by an explanation of why it's administered weekly. Finally, a "Warning" section in red text explains the risk of being on a hormonal rollercoaster if not administered correctly.

Testosterone Cypionate

7 Day Half-Life
The "half-life" suggests how much time a medication will stay effectively in your body. In this case, the half life suggests it's in your body 14 days total. "Half" spent working on the body. The other half spent exiting the body.

Ester Benefits
Because this ester of testosterone stays in the body for so long, it only needs to be administered 1x weekly.

Warning
If you are prescribed this medication and it's only administered once every two weeks, your provider has you on a hormonal rollercoaster. Contact us for a free, no obligation consult.
