## Anyone have experience stacking primo/tren? - eroid s

posted 2Y ago 2171 Need input on a tren/test/primo/anavar cycle ad So I'm planning to run stronger cutting cycle with Tren E, Test E, Primobolan and anavar as a base. I also have oral winstrol, EQ and Halotestin available as well as sustanon 250 and test cyp. What would be the appropriate add on (s) to the base and at what time/duration?

## Test/Tren with Primo or Mast? - Professional Muscle

Last updated: Oct 8, 2023 SteroidCycle is intended for informational purposes only and does not take the place of professional medical advice. Trenbolone (Tren) is considered to be the most powerful androgenic-anabolic steroid (AAS) available, with an exceptionally high ratio of anabolic to androgenic effects.

## Primo and Tren Together | EliteFitness Bodybuilding Forums

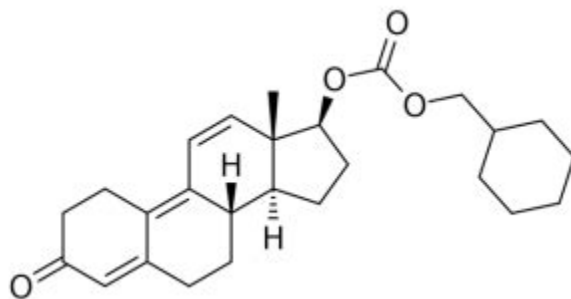

why? tren will overpower the primo. tren takes center stage regardless of what compound is being stacked. sounds like a very expensive experiment. would achieve the same result with just tren. imo primo should be saved when tren isnt in the blood and one wants to keep lipids reasonably within range but continue making progress without tren reply 0

### Anyone tried a Test,Primo,Tren E Cycle? - Steroid

Anyone tried a Test,Primo,Tren E Cycle? I have been on a 250MG Test/300MG Primo cycle for about 2 months now. I am happy with the results, steady strength gains with zero sides and the Primo makes me feel great. However I recently got off of Clen and Adderall. Within 3 weeks I had gained 8 pounds going from 243 to 251.

## Trenbolone Cycle (Tren Cycle Guide) - Steroid Cycles

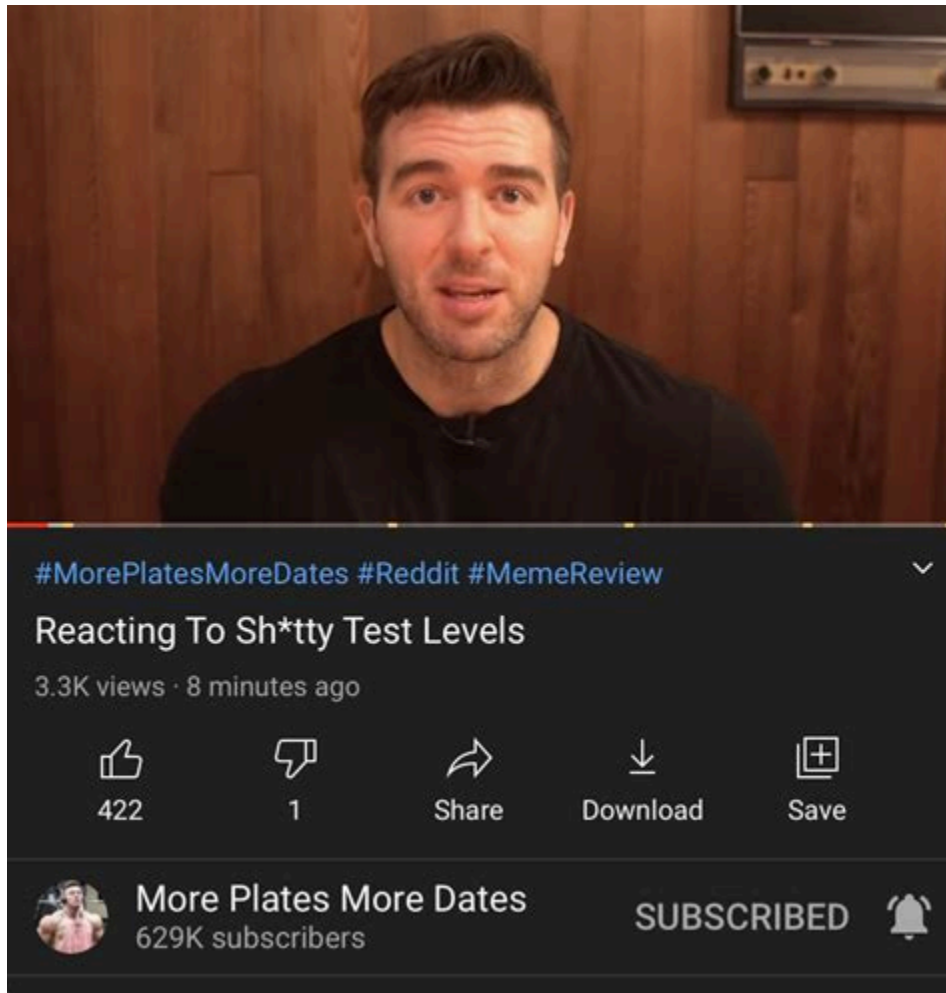

3rd Cycle - Test E, Primo E, Tren A | MESO-Rx Forum Anabolic Steroids Hi! I am about to begin my third cycle. My first cycle was just Test E. My second cycle was Test E + Primo E + Anavar (just on the last 4 weeks). Got great.

### Anyone who did test/tren/primo? Experiences | MESO-Rx Forum

Proposed cycle (16 weeks) Anavar = @60mg per day Week 1-7. Test e = 750mg per week week 1-16. Primo = 600mg per week 1-16. Tren e = 250 per week 1-16. Proviron = 50mg per day week 1-16. Winstrol = 50mg per day week 12-16 (maybe) Got caber, Ai, nolva, liver support ect all on hand will use throughout cycle. I haven't ran 750mg test per week.

## Test+Primo+GH Cycle Review - AnabolicMinds

#1 Any thoughts? The traditional cut stack of test mast tren and anavar has always been my go to for the summer. I gave primo a shot once but probably not enough of one to be honest. I see a lot of posts saying primo is the best for summer. Why is that? To me it just seems weak.

## Test, Tren, Primo, Var Cycle | Evolutionary Steroids Research Forums

#1 Has anyone ran primo with tren. My planned cycle was test e @ 500mg every week with 800mg of primo. I will run that for 16-20 weeks. My goals is to gain as much lean mass as possible on this cycle. I have the biggest urge to add parabolan (tren hex) @ 300-400mg every week. Any synergy?

## Cut Cycle - Test/Tren/Primo | iSARMS Forums

Primo is a better anabolic, will add more muscle IME, also more water in the muscle from it. Masteron gives a harder look, and more strength than Primo would. So, a bit more muscle from the cycle, or harder look. Both are among my favorite cycles. You can't lose with these if your diet is good. One thing to consider is that Primo makes me happy.

## 22 Week Cycle - Test Primo Tren Mast Var Win - T NATION

First off; tren is much more androgenic and binds to the AR with a much higher affinity than test; mast or primo. I run my tren higher than my test because it keeps sides minimized for me; also when I add masteron or primo ; to a cycle like that; you'd better have a low BF% or IMO there are better agents to use besides those two DHT's.

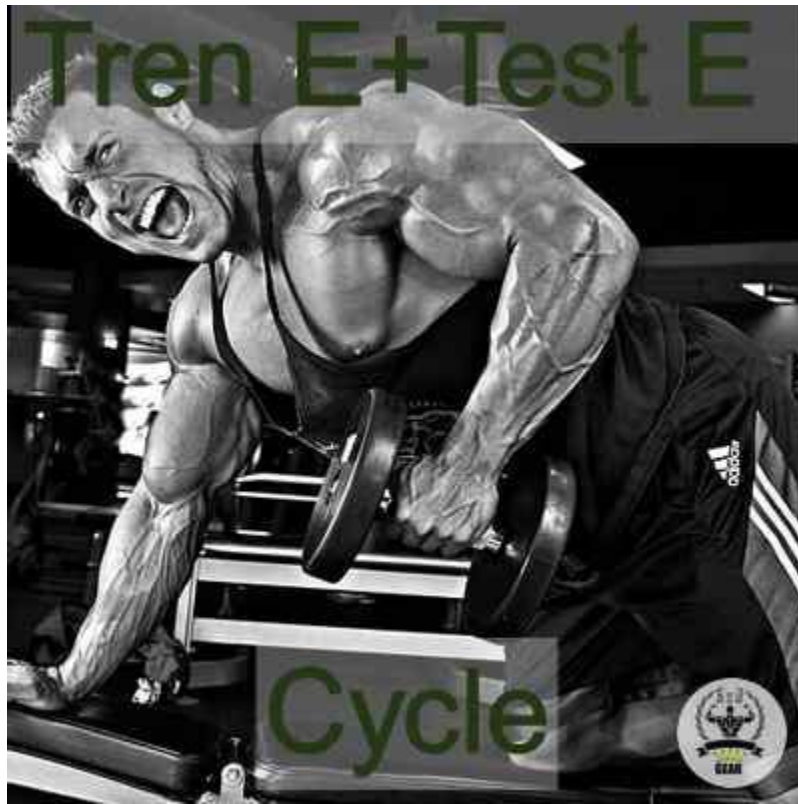

## Trenbolone Cycle: The Ultimate Guide - Inside Bodybuilding

Primobolan Proviron Winny (ONLY if going into competition) No Trenbolone, halo, testosterone

suspension, Anadrol, Dianabol, or Sustanon (it's not a steady release and too much water retention) - amongst numerous other harsher compounds that I don't use.
