Bodybuilding product Tri-Methyl Xtreme contains anabolic steroids

Tri-Methyl Xtreme Supplements May Lead to Liver Damage The U. S. Food and Drug Administration (FDA) is warning that Tri-Methyl Xtreme, a muscle-building supplement sold by Las Vegas company Extreme Products Group, has been linked to liver damage. According to Associated Press, the supplement was linked to three reported injuries in California, New Jersey and Utah.

Liver Damage From Supplements - ConsumerLab

The added methyl-group at the 7th position increases the hormone's androgenicity and prevents the action of the 5-alpha reductase enzyme. The slight alterations made to the Nandrolone hormone gives us one of the most potent and powerful androgens ever made and even one that is quite anabolic. The Food and Drug Administration warned consumers not to use a muscle-growth supplement called Tri-Methyl Xtreme that it said has been linked to cases of severe liver injury.

Steroid Products Banned by FDA And Where to Find Substitutes

Updated May 18, 2023 © Answer: A wide variety of dietary supplements may cause damage to the liver, so it is best to check the "Concerns and Cautions" section of each our individual Product Reviews of any supplements you may be considering taking.

Tri-Methyl Xtreme Supplements May Lead to Liver Damage, FDA Says

Jan 1, 2013 #2 All compounds are underdosed. Methylstenbolone is not Superdrol. I would question the ability of the producer to source m-sten without impurities. M-Sten and LMG could be used for bulking at appropriate doses; Epistane is out of place here. I would advise you to save your money on this product.

Muscle Supplement Linked to Serious Liver Injury

April 2015 Muscle Growth Product Tri-Methyl Xtreme Contains Anabolic Steroids. The U. S. Food and Drug Administration (FDA) has issued a warning for consumers to stop taking the dietary supplement Tri-Methyl Xtreme immediately. The product appears to contain anabolic steroids and has been linked to several serious liver-related adverse event reports in California, New Jersey, and Utah.
