

2 Fuccbbbooooo • 1 yr. ago For reference the total is kind of moot to how responsive you are. You should look at free. Also if you are going to blast and cruise. Do more, but drop to 12 weeks. r/steroids is really helpful. I went the slow route on hrt and got from 135-175-195-215 and there's probably less water weight then you think!

• 3 mo. ago SlapHappy\_36 Ultima vs. Pharamacom vs. Euro Pharmacies Finishing up my first blast with Ultima Cyp (tiered up to 500mg/week, and backed off to 250/week for the last two weeks) . been pretty pleased with the results. I see alot of talk mentioned about Ultima, Pharamacom, and Euro Pharmacy as the best manufacturers. What is your opinion?

Ultima is my preferred lab. Test e, Tbol, Adex, Nolva, Masteron all good to go. They have been around a while. 6 Extreme-Yard755 • 9 mo. ago I have used Ultima Test C 250 when I moved and my trt test got misplaced. It worked great and actually was smoother (easier and less painful to sub q inject) which surprised me as it is 250 my trt was 200.

10 I would say Ultima is definitely credible. I've run their test for a while and have done a cycle of their Tren A. Have been very satisfied with both. Side effects and PIP 10 0 pip. I get a little bit of acne but that's normal. Final Verdict 10 Good product.

The advertisement features a dark blue background with a stylized orange 'S' logo in the top left. In the center, a white box of 'Ultima-Oxa' and a bottle of 'Ultima E 200' are displayed on a white circular platform. A red umbrella is positioned behind the products. A red circular badge with white text reads '7 DAYS ONLY.'. The text 'GET READY FOR SUMMER WITH' is in white, 'ULTIMA PHARMA!' is in large white letters with a globe icon, and 'BUY 3 GET 1 FREE!' is in large red letters. At the bottom, an American flag icon is followed by 'US DOMESTIC OFFER!' in white. A small disclaimer at the very bottom reads '\*Promotional terms and conditions applied. Please read the description.'

My recommendation is to get the Turkish pharma one instead. irontyson406 • 8 mo. ago What was your experience and why do you recommend a Turkish one? Which Turkish one? Teclo25 • 8 mo. ago The pharma grade one felt more potent. I suggest checking the website.

9 Hanah9595 • 1 yr. ago This may not have been true in 2002, but in 2022 it is. Thanks to sellers having internet reputations and raws from China being cheap as hell, it doesn't make business sense anymore to fake most cheap stuff like test.

GLP-1 receptor agonists have a titration period of at least 8 weeks, so you won't even reach the therapeutic dose until week 9. Most people need this to see any significant weight loss. GLP-1 receptor agonists can support you by making it easier to eat less food, which should make a low-calorie diet easier.

• 4 mo. ago Thanks for taking the time to respond. I was just a bit dubious when my shipping company confirmed it was coming from Asia. You hear horror stories about the quality control with some of the Chinese labs and use of unregulated chemicals used in the process. I suppose that's just the risk you take with an UGL.
