## Testosterone Cypionate Injection USP - Rexall

Testosterone belongs to the class of medications called androgens (male hormones). Depo Testosterone (Testosterone-cypionate) is used to replace testosterone in men who have conditions caused by low testosterone levels, such as Erectile Dysfunction (difficulty getting or keeping an erection).

Furthermore, it is a medical treatment that is used to cure erectile dysfunction. The main treatment for male erectile dysfunction is to help the body to recover from the disease. It is a common condition that is caused by the inability of the body to produce enough testosterone. Additionally, it is a hormone that is produced by the pituitary. [visit website](#)
