To start seeing the results from Anavar steroid 1.5 month should pass. How to use steroid Anavar Cycle: To improve the relief, it is recommended to take Anavar tablets for 2 months. The dosage during the cycle should be increased. The starting dosage is 20 mg per day, divided into 2 equal doses: in the morning one and in the evening the second. Pretty much killed my legs today. Doubled my reps from 5 ➡ 10 for 456 on leg press. My left quad caught a cramp around rep 4/5 but I said f it and kept going ☐

I am 44 years old and wanted to get below 250lbs. Hovering somewhere between 260 and 280 since my football career ended, this was a major challenge. I work out and play lots, but nutrition is my weakness...I was once 320lbs in the #NFL and developed a habit of eating everything..TWICE!

□ Concentration : 10mg/tab Volume : 100 tabs Recommended dosage : 50-100mg/day. Used at a normal and advisable dosage, the Oxandrolone Anavar molecule does not disturb the hormonal cycles, or metabolism because it aromatizes only slightly. The Oxandrolone causes fat burnt and thus firmer muscles and optimization of powerlifting.
