Testosterone Cypionate is the manufactured version of testosterone, and it's the type of testosterone you get if you're on weekly shots in an office. I expect this shortage to last around 2-4 months. In the meantime, what we are doing is moving patients who get weekly shots in office to other forms of bioidentical hormone therapy ...

Testosterone cypionate intramuscular injection, Sun Pharma, 200 mg/mL, 10 mL vial, 1 count, NDC 62756-0016-40; Reason for the Shortage. Cipla did not provide a reason for the shortage. The 100 mg/mL 10 mL vials have been discontinued. The 200 mg/mL 1 mL and 10 mL vials have new NDC numbers.

A new improvement session has been written, I cover the whole upperbody and it's just a way to make sure in hitting everything twice a week up top. Lots of sets, little rest periods and all to failure.

Other Reasons for the Shortage . Paddock has testosterone on back order due to raw material shortage. Watson could not provide a reason for their shortage. Sandoz discontinued testosterone cypionate 200 mg/mL 1 mL and 10 mL vials in September, 2011. Teva has temporarily discontinued their testosterone cypionate injection presentations.
